Subject: submission regarding national radioactive waste management bill

Date: Wednesday, 10 March 2010 12:28:47 PM

I want to submit that I am opposed to the National Radioactive Waste Management Bill (NRWMB).

The Senate Committee must pay due respects to the Aboriginal Traditional Owners by taking evidence from the Traditional Owners directly. This means that the Senate Committee must travel to Tennant Creek to hear from the impacted community directly.

The nomination of the Muckaty site by the Northern Land Council was high controversial and is contested by many Ngapa traditional owners.

The proposed bill is highly coercive and genocidal in its long term social ramifications.

Muckaty as a radiocative waste dump shows extremely poor judgement and reflects extremely poorly on the Labor Government.

Yours sincerely,

Anthony Amis
