

I am writing this email to show my disgust at the total disregard this government has shown to Telstra shareholders. How dare you sell this company to us, make billions of dollars from mum and dad investors, then a couple of years down the track, decide to split up the company, destroying the value of the company you encouraged all Australians to buy. What a disgrace!! I have been a Labor voter all my life, but if you go down this communist/dictatorship path, I will never vote for you again. How dare you rip us off like this. How do you sleep at night??

Regards  
Luc Corrado
