

SENATE INQUIRY INTO PAID PARENTAL LEAVE (PPL)

Why Do we have discrimination?

A married mother who is supported by her husband and decides to stay at home to look after her children should be entitled to the same amount of money from the Government as a working mother

Equal funding for all mums would be simple to calculate and administer. Amend the Bill to deliver this funding via the Government (similar to the current Baby Bonus payment means) and save taxpayers and business the unnecessary, high costs of using businesses as the "government paymaster".

Regards

Max Hodby
