

## SENATE SUBMISSION

In reference to the insulation of homes program, I would like to advise that my home had been

insulated by a reputable company (25 years experience) in July last year and I have found that

during the summer and these first cold months of this year, the difference in the temperature of

the house has been remarkable. No need for air-conditioning and a gas fire has been rarely used

for warmth. I am very grateful that I was able to make use of the Government's Insulation

Program and thought it was a great initiative. With all the negative publicity given to the program I thought a positive position would be appreciated.

Thank you.

Barbara Matthies
