

Senete Native Vegetation Inquiry

In 1969 a pair of Australian Olympians, us, purchased 150 acre Estuary front property with 1.5 Klm waterfront at Nambucca and built the Motor Inn.

This property has a drain, that drains the western side of Pacific Highway, only in heavy rain, blocked by silt.

In 1985 Carr and the Labor Govt. declared it wetland that encompassed the whole title

A commission of inquiry under Commissioner Roger Simpson was held. NSW Farmers and Dr Michael Brennan consultant had this adjusted, to the drain boundaries. Since then we now have 40 metre buffer zones both sides of this blocked drain

Please note this legislation didn't include N.S.W. ie Newcastle, Sydney & Wollongong. ~~So~~ too many Labor votes. This was all part of Labor winning the Greens Communist vote

If this State or nation requires freehold title, for whatever. They should pay, not the land owner
 We have not received 1 Cent compensation
 On the 28th October 09 the mortgagee got their money

We refinanced and offered more than the purchaser, which was rejected.

Left Fair Trading state mortgagee doesn't have to accept our offer

Before the crash we were dealing with a Queensland Co @ \$3m.

Now once proud Australians have nothing
