

To whom it may concern,

I would like to voice my view on Palm oil labelling-

I would like to have the choice to be able to avoid buying the products that contain palm Oil. At the moment as a consumer I cannot make that decision as labelling laws do not enforce

Companies to include the use of palm oil on their products . Orang-utang's and Sumatran tigers are

amazing creatures and this world would not be same without such amazing animals. I don't want to

see these creatures become extinct knowing that it was partly my fault as I brought several products

for years containing palm oil.

Please give us a Choice and a chance to save these animals !!!!!!!!
