Australian Government response to the
Senate Standing Committee on Economics report:

Australia's oil and gas reserves

[June 2024]

The Government notes recommendations 1-2 made by the Committee in its report, additional recommendations 1-9 made by former Senator Rex Patrick and recommendation 1 made in the Dissenting report by Australian Greens Senators. However, given the passage of time since this report was tabled, a substantive Government response to the recommendations is no longer appropriate.
