“...we are now arguing the right to target what science shows as fully formed human beings because of their genetalia...”

The ACLU's defense of gender-selective abortion and the elimination of Down syndrome babies

BY DR. GERARD M. NADAL

Wed Mar 20, 2013 17:19

The above quote from Dr. Nadal's blog expresses, in part, my concerns regarding abortion on the basis of gender. The section underlined by me is particularly poignant. That this nation of Australia would use public money to fund the termination of human beings on the basis of genetalia is abhorrent. Please do not use my hard earned tax dollars to fund gender based abortion.

Yours faithfully,

Angela Phillips BSc (App), MECH
