

---

Dear Minister

I wish to have my opinion heard and give my support for a Health Amendment to (Medicare for certain types of Abortion Bill)2013

This is practicing Discrimination against the unborn child who does not have a say; based wholly on the gender of the fetus; Not meeting the desire of the parents/couple.

Secondly, I am Pro-Life and respect the right of the unborn child.

Thirdly, I do not think that aborting a fetus purely based on wrong gender is justifiable; preventing a life from developing is the same as killing.

Fourthly, Since the sex act is supposed to be a loving act which is spontaneous and giving; can then be a contradiction in picking who lives and who dies because the gender is Not wanted.

Life is a gift and we should be happy and appreciative of a healthy infant without disabilities. Why are people so Self absorbed and Self centred and gratuitous pointing to human fetuses' as a commodity to pick and choose and discard based on its sex.

Pro-Life always

Teresa Strach
