

To: Committee, EC (SEN)
Inquiry into the EPBC Amendment Bill 2013 [Provisions]

Help the farmers and the community to have safer water supply. it's your responsibility. I saw the ABC program last night and was horrified to see the farmers water supply on fire. this is a disgrace and Australia is supposed to be a civilized country, politicians do your job and protect our water supply you should not be held hostage by big corporations.

Kind regards
Name: Frances Petrou
