

**INQUIRY INTO TREASURY LAW AMENDMENT (YOUR FUTURE, YOUR SUPER) BILL  
2021**

**ANSWER TO QUESTION ON NOTICE**

David Bell, Executive Director The Conexus Institute

**Topic:** Submissions that identify insurance-related concerns

**Member:** Andrew Bragg

**Type of question:** Spoken

**Date set by the committee for return of answer:** Tuesday 13 April 2021

**Question:**

Dr Bell: The point is well made, but what we also see from looking at the submissions raised by funds which specialise in employment in arduous industries—

ACTING CHAIR: What types of funds are those?

Dr Bell: Industries which are arduous—I think about construction, mining and so forth.

ACTING CHAIR: Could you provide those on notice?

Dr Bell: Those submissions have already been made—

ACTING CHAIR: Yes, but are there particular funds that you are concerned about?

Dr Bell: I'm happy to send you a submission.

**Answer:**

I was requested to share submissions which identified insurance-related concerns identified by some super funds. Submissions by two funds, [HESTA \(submission 16\)](#) and [CBUS \(submission 26\)](#), addressed these issues. In addition the [Actuaries Institute made a submission to Treasury](#) which addressed these issues.
