

To whomever it may concern,

Please do not mine Coal Seam Gas. There are many obvious reasons as to why this is severely hazardous to not only the current Australian public, but also to the generations to come. Ruining our water will ruin our way of life. By continuing with this idea to mine Coal Seam Gas, parties involved will be signing a death sentence for all of Australia.

Please consider this plea!

From a very concerned young Australian woman who was involved in the Doubtful Creek blockades,

Melody Popple
