To the Chairman of the Senate Finance and Public Administration Committees.

Dear Sirs.

I, Wade Ewart Cox, make the following submission:

1. I write to support the Vaccine Indemnity Bill in its provisions.
2. I object to the conduct of the Federal and State governments in their enforcement of the "Vaccines" over these last several years and their provision of Indemnity to the Pharmaceutical companies affecting the legal rights of Australian Citizens and tax payers.
3. I and my family have been seriously prejudiced by the Governments attitude and actions over the last several years.
4. The conduct of the Government and its officers have been in breach of the Nuremberg code on a consistent basis over the entire period and are involved in Genocide.
5. The Human Rights Commissioner has refused to enforce the objectives and legislation of the Nuremberg Code and should be disciplined for neglect of duty.
6. Action should be taken against both the previous government and this government and the Health officials for breach of the Code and the deaths of those killed by the so-called "Vaxxes"
7. I say and the facts are that the government has no right to grant indemnity to pharmaceutical companies providing dangerous goods under false pretenses and lies as to efficacy and by improper and inadequate testing and declarations.

I commend the Bill.

Wade Cox
