

Hello sir/mam,

I am writing this submission against the proposed visas capping bill. I came to Australia 3 years back and did my commercial cookery course from one of the private colleges been licensed by the govt. On the same time I started my work experience working in a restaurant. I have been doing that since then and now am working full time as a cook in a reputed restaurant. I have done possibly everything right to apply for my PR application in a right way. Now out of nowhere after waiting for one and a half year I am being told that we don't need anymore cooks or hairdressers etc. I strongly feel that is not a fair go to genuine applicants like me.

I hope whatever you decide will be in the best interest of the genuine applicants who have applied for various visas.

Thanks

Regards
