

Submissions for the Truth in Labelling – Palm Oil Bill

I want a future world that allows orang-utan's and tigers and their habitat are able to survive and thrive. I don't want them to disappear forever. All consumers have choice with products that contain palm oil.

Make sure you support Palm Oil labelling so that beautiful natural forests are not stripped, wildlife dying and disappearing forever and local communities not conned out of their local resources. We need labelling to know when and where palm oil is sourced and produced which is why the Truth in Labelling bill is so important.

Best regards

Ms Ani Gibson
