

Photographic evidence of the inadequacies of the vegetation mapping

*Photo referred to by Mr Sawyer at a public hearing held in Launceston on Wednesday, 2 November 2016.
The Proof Committee Hansard transcript can be found [here](#) (see page 35).*

Caption: View west across Frozen Lagoon (approx. 3km south west of Lake Mackenzie on the Central Plateau). TASVEG shows the entire hillside on the far side of the lake as part of an extensive pencil pine forest. Only a few small pencil pines are visible in the photo.
