Any preliminary data available for the current quarter on apprentice and trainee commencements, cancellations, withdrawals and completions, including where employment contracts have been terminated or apprentices returned to Group Training Organisations.

Preliminary commencement, completion, suspension and withdrawal numbers for the March quarter data is generally released by the National Centre for Vocational Education Research (NCVER) in August, and for the June quarter generally released in November. Officers will be available at the hearing to provide evidence on preliminary commencement, completion, suspension and withdrawal numbers based on feedback from stakeholders within the sector.

For each quarter since the start of 2018-19, the number of apprentices and trainees; the number of trade occupation apprentices and trainees; the number of non-trade occupation apprentices and trainees (broken down by federal electorate, state and territory, and gender)

Please note the following when reading the data in the tables below:

- Numbers have been rounded to the nearest 5. Some numbers do not add to the total provided. This is because totals are summed from raw numbers and not rounded numbers.
- An electorate will not show up where the number of apprentices in training is zero.
- The electorate and jurisdiction is determined by the workplace address.
- 31 December 2019 data is not available until June 2020.
