

Thursday 4th April 2013

Submission on Senator John Madigan's
"Health Insurance Amendment (Medicare Funding
for Certain Types of Abortion) Bill 2013."

It is not acceptable to me as an Australian
taxpayer, that Medicare funds be used for
gender-selective abortions.

Many millions of girls have "gone missing"
because of gender-selective abortion in the
world today.

As an Australian woman, I do not
support the use of Medicare funds for
gender-selective abortions, simply
because the baby is a girl. A girl has
the right to live because it is her
most basic human right.

Marion Isham.
