One of the most serious violations of our constitution occurred when in 1959 an Australian Government secretly handed over the then Australian Commonwealth owned Reserve Bank... to a small group of wealthy international bankers ( Rolthchields etc) which has left the Australian people and the Commonwealth Government with out an Australian Reserve Bank for... the last 50 years.

The second violation occurred when the Australian Commonwealth Government , with out a referendum and under pressure from the United States Government, introduced a highly toxic poison in the nations drinking water. Fluoride.

Now we are about to see the Commonwealth Government once again violate the nations constitution by criminally preparing to set up a permanently dangerous radio active toxic waste facility at Muckaty.

Government for the people, by the people..... which people?

Where ( who) are our Constitutional Lawyers.....and when are they going to start to earn their enormous salaries?
