## JOINT SELECT COMMITTEE ON AUSTRALIA'S IMMIGRATION DETENTION NETWORK

\*Q256\*

Question: Can you tell me what the three-month forward projection is for the capacity or overcapacity situation at Christmas Island for each of the next three months.

Answer: The department uses Christmas Island as an initial reception point for Irregular Maritime

Arrivals (IMAs). Currently the large majority of IMAs spend a relatively short period of

time on Christmas Island before being transferred to a mainland facility.

The department is able to adjust the rate at which people are transferred from

Christmas Island in order to retain capacity for future arrivals.
