
Senate Finance and Public Administration Committees,

I find it incredible that governments condone gay marriages which is illegal in the eyes of God yet they not only agree to but pay for (through Medicare) fetuses to be murdered in the name of 'gender selection.'

Our laws are taken from the Bible one of which is "You shall not kill," and the fact that it is condoned and encouraged, is outrageous.

I therefore wish to register my objection to such practices. I vote and pay taxes and the persons I help to elect need to take notice of the majority and ban criminal acts such as 'selective gender.'

I'll be watching the outcome of this issue and will not hesitate to vote against persons who allow this practice to continue.

Is this a threat? You bet it is!

John Wright
