CANBERRA ACT 2600

Dear Sir/Madam,

WATER ACT 2007 REVIEW

The Water Act 2007 does not need to be amended. The environmental provisions included in it reach the right balance and any new changes would be purely politically motivated, and not based on any scientific consideration. Water should be returned to the environment which in turn would sustain healthy communities.

I strongly oppose any changes to the Act.

Yours faithfully,

Elisabeth Brasseur
