

SUBMISSION

1. I strongly support the Bill;
2. I do not support aborting an unborn child solely on the basis of gender preference;
3. Abortion based on a gender preference is untenable;
4. Given certain cultural preferences for a male child, abortion on the basis of gender preference has the real possibility of upsetting the gender balance in our society;
5. I do not support aborting an unborn child except for reasons that put the life of the mother and child at risk if the pregnancy continues; and
6. Medicare funding of selective abortion is an unacceptable cost burden on the Australian tax payer.

Kind Regards,

Ted Cameron
