Design and implementation of a best practice full precommitment scheme within Australia - Inquiry into Gambling Reform

To the Committee Secretariat,

Thank you for the invitation to provide input into the design and implementation of a best practice precommitment system as part of the national Inquiry into Gambling Reform. Please find below a recent published report outlining findings from the South Australian Precommitment Trial (a report in the public domain, published by the SA Department of Treasury and Finance).

www.treasury.sa.gov.au/dtf/policy_analysis/gambling_policy/responsible_gambling_working_party.jsp

Then please refer the link entitled > Worldsmart Technology Pty Ltd Trial Evaluation Report

This involved an evaluation of a real-life implementation of precommitment and summarises the experiences of both players and venues with a precommitment system. This is the fourth research evaluation of precommitment trials I have been involved in and if useful, I would be happy to answer any questions you may have about early learnings to date.

Warm regards
