Dear Mr Hantsford

Telecommunications Interception and Intelligence Services Legislation Amendment Bill 2010

I refer to the above bill.

I am aware that the invitation for submissions in relation to this bill closed on 27 October 2010. Unfortunately, the effect of this legislation has only just been brought to my attention.

The purpose of this submission is to endorse the submission to the Committee made by the Privacy Foundation dated 27 October 2010.

We trust that regard will be had to this submission despite its lateness.

Yours faithfully

Michael Cope
President
For and on behalf the
Queensland Council for Civil Liberties
