

---

Dear Senators,

Where are we going with this?

Funding sex-selective abortions must stop! I will not have on my conscience the fact that I have allowed my elected representatives to continue with this kind of social engineering.

Are we funding sexism? We take people to court for offensive remarks or behaviour toward the opposite sex so what's the difference? Will we allow innocent children in the womb to be bumped off because of their sex? Our hypocrisy is a stench and people of good reason can smell it for miles.

Abortion on demand, infanticide, genocide - apart from the age of the victims, what's the difference? Dog eat dog world. Are we here to defend the weak and the poor or just the strong and over-privileged? Abortion on demand is a curse on our humanity. What did this nation expect when it allowed this unjustified infanticide to go on for as long as it has. Let's reverse this curse! Let us agitate to abolish the law of abortion on demand. Put pressure back on our wayward citizens to be more responsible with their sex. Allow more Aussies to adopt unwanted babies. Uphold the rights of our unborn genius!

Let's set an example to the world and fund what God has designed and not what our insecure and immature citizens are trying to manipulate because of their fear of getting the 'wrong' sex! Let's be a truly developed nation and reverse this curse before it gets any further.

Yours sincerely,

Bruce Langford  
(B.A., B. Min., Dip Ed., Cert. Miss.)
