

Answer to questions asked of Voyages Indigenous Tourism Australia, operator of the resort at Uluru, received 25 July 2012:

1. Is Premium fuel being sold at Uluru? [Yes we sell Premium fuel at our Shell Service Station](#)
2. If it is being sold, is there more than 1 outlet selling Premium fuel? [There is only one outlet selling Premium fuel which is the Shell Service Station - there are 4 bowsers with 8 hoses](#)
3. If it is being sold, is it being kept under lock and key? [Yes, Premium fuel is locked. On request an attendant unlocks pump and fills up the tank and the pump is relocked by attendant. From time to time it can happen that the key is handed over to a customer to lock and unlock the pump when we have only one attendant on duty. However regular daily checks are carried out to ensure that pumps are locked when not in use.](#)

I hope this addresses your queries, and if you require any further assistance, please don't hesitate to contact me.

Kind regards

Casie
