

Senate Finance & Public Affairs Comm. on
Native vegetation etc etc.

- ① Carr Govt's SEP46 was the end result
of hearings deal done with the States
in May 1992 - totally illegal.
- ② Native Veg. act ill conceived and
morally wrong.
- ③ Land clearing ^{restrictions} equals lower production
and loss of income.
Look up if some lands sometimes counter
productive eg. feral pigs.
- ④ Any compensation for forced take over of
land should be based on improved present
day value.
- ⑤ Climate change information proved misleading
and there need to be debate from both sides.
