I think we got a letter from Counsel Assisting.

Cameron Gifford is the AGD contact for the Inquest so he will likely know if anything further has come in.

Hi Cameron

Further to the email trail below – I was hoping you could confirm whether AGD has received a request for documents from the NSW Coronial Inquiry into the Martin Place Siege?

I am working on some follow-up work from the Martin Place Siege Review – and part of this process will be identifying if any of the Review material will be requested by the NSW coronial inquiry. Iain will be clearing all documents provided to the inquiry before they are released.

Grateful for any updates on this process.

Thanks

I am prioritising item 1 of the previous work list.

Further to Tony's latest email - please let me know if you want to meet to discuss next steps or priorities for the next two days.

Folks

Having now had some further discussions including with Chris, it is evident we need to do the jobs below diligently and fast. I would be grateful if for the next three days (at least initially), [REDACTED] and [REDACTED] essentially operate offline with Sarah as a taskforce to ensure we have a complete knowledge of the processes that led to the provision of documents to PM&C and then to the AFP, and satisfaction that we have as complete a knowledge as our system allows of the relevant documents we hold.

Katherine will be correcting the Hansard from Estimates and we need to have done the above as well and as quickly as we possibly can before she does. I wish to meet with the team once a day for the next two days at least - this is a high priority.

Separately Chris wishes to prepare a letter to the AG outlining what occurred. I will provide a skeleton to Sarah in a separate email and some of you will be asked to contribute to the draft in the next couple of days.

Regards and thanks to all for their attention to this.

Sarah/Jamie/Iain

I have asked Sarah to make sure in relation to the existing issue that:

1. We get the detail around how searches were conducted in Divisions for documents and how the final output to PM&C was cleared.
2. We check whether we have records of any documents on the overall list being referred by AGD to ASIO or AFP or other departments.
3. A full check of documents on the third and fourth of Jay's sheets occur in NSLPD (with whatever assistance needed from SDD and CrJD) to see if anything else should have been provided to PM&C.
4. Any of the additional documents we have now identified as not going to PM&C which are considered in-scope for the Coroner are cleared by Iain Anderson personally before they go to the Coroner.

Separately, I have asked Sarah to coordinate another search of all our records using the search parameters provided by the Martin Place Siege Review Terms of Reference; to make sure we have missed nothing else. It will involve all Divisions. Sarah will outline the process in a bit of detail in a separate email as it will serve as a pilot for a guideline on how enterprise searches of our systems are conducted in the future.

Given there is still some work to do, and given it is clear that only by joining the collective brains of NSLPD, CrJD and SDD we can assure ourselves we have the full story about what has happened with the previous search, I would be grateful if each Division Head (Iain you know who is acting for you) ensure [REDACTED], [REDACTED] and [REDACTED] are available to do what is needed as a top priority.

If anyone thinks of anything that should be added to the above please let me know.

Iain,

[REDACTED] will be heading off on leave on Friday morning (she flies out to Europe on Friday), returning to work on Tuesday 14 July. I will be heavily involved with this process over this period.

Acting arrangements whilst [REDACTED] is on leave are:

- [REDACTED] Acting Director for the period Friday 5 June to Friday 12 June inclusive
- [REDACTED] acting for the 4 weeks from Monday 15 June to Monday 13 July inclusive.

Whilst I hope this is all over within the week, I will keep [REDACTED] in the loop in case it is still going while he is acting.

Good morning all

As discussed, please find attached the spreadsheet with the list of mincorro items along with copies of the 'draft' responses we located within TRIM yesterday. Some of these draft responses may have been sent/finalised, but we did not find them when searching by mincorro numbers and titles.

Hi [REDACTED]

Can you give me a call when you are back in the office?

I need to confirm the CrJD coord process for the Martin Place Siege Review – including the AGD coord (AusCheck) as well as the process CrJD undertook to search for relevant correspondence within the Division.

I was hoping you may be able to assist with the CrJD side of things. It doesn't have to be detailed – a high level overview of the process would be great.

Thanks

Good news. Only 2 of the (relevant) docs are non-NSLPD docs. EMA is happy with those 2 going to AFP. Subject to AGO agreement, we will send everything off Monday and get your folder back to you ☺

Hi [REDACTED]

I'll collate the docs when I get a chance this afternoon. I'll also get you a list of divisions that approved initial release, so you can confirm they are OK with this additional release. [REDACTED] in the AGO agreed to release on behalf of the AGO.

Minor point of details - is he after corro between Monis and AGD (cf AG)? I recall that this would only be a small portion of the corro we collated.

Hi [REDACTED]
Thank you for sending these records lists through. As advised, I'll double check them against the documents we have.

I would like to add the following 2 documents to Folder 3 of 'Material provided to the Review Team':

- Letter from Sheikh Haron to the Attorney-General dated 7 October 2014
- Letter (response) from AGD to Sheikh Haron dated 5 November 2014.

I would be grateful if you would advise whether you have the original/source index of documents – to which these (& possibly other) entries could be made. If so – would you add these documents to the index (or send me the trim link for me to add).

I'll contact [REDACTED] get him to forward me any other relevant ministerials from other divisions that might be relevant. I'll then let you know whether

Also – just wondering whether this folder (3) of documents has been provided to the Review Team... If so – we will need to provide them with updated documents.

Thankyou

Hi [REDACTED]

As discussed, please find attached Excel doc showing the ministerial correspondence and ministerial submissions we located within ExecCorro and TRIM. We undertook a search for any items containing any of the names provided by Tony in the following fields:

- Mincorro – “Author/Correspondent” or in the “Subject/Title” fields
- Minsubs – “Subject/title” field

The majority of these items are from NSLPD, but several of the minsubs are from either AFP or Customs and from several years ago.

Please let me know if you need anything else from us.

Hi [REDACTED] and [REDACTED]

Further to my conversation with [REDACTED] - I understand you are heading up the media and comms team.

As per **attached** TRIM list – there are a number of SDD records identified as potentially relevant to the Martin Place Siege Review.

Are you able to review these documents and confirm which documents are relevant for inclusion in the pack?

We are under a tight deadline of 4pm to clear the pack with Tony but let me know if this is not possible as we may be able to send your section tomorrow.

– as discussed. At this stage we will just include the list of documents identified from your search of min corro/subs of ExecCorro and TRIM (rather than the actual documents).

Happy to chat further – ext. [REDACTED].

Many thanks

As foreshadowed, Chris would like to prepare a letter to the AG which outlines in respect of our Monis search and provision of documents to the review and AFP:

- The search procedure
- How the error occurred
- How the error came to light and associated management of it
- What steps the department is taking to enhance its search and provision of document processes
- What steps more generally the Department took after the raising of the alert level on 12 September 2014 to ensure appropriate awareness and vigilance in AGD

May I see a draft on Wednesday morning please. If you need any more hands to help with this let me know. It is important we do this in parallel with the work of the taskforce, so we can finalise it as soon as the other work is finished.

Iain will advise if he recalls Chris wanted anything else in it.

Attorney-General's Department

Secretary

3 June 2015

Senator the Hon George Brandis
Attorney-General
Parliament House
Canberra ACT 2600

Dear Attorney-General

Attorney-General's Department's handling of correspondence from Man Haron Monis

I am writing to explain the Attorney-General's Department's handling of correspondence from Man Haron Monis and provision to the Martin Place Siege Review and the measures I have taken to improve the Department's procedures.

2. In early January 2015, the department undertook searches for all documents and correspondence relevant to the terms of reference for the Martin Place Siege Review. This included searches of the department's ministerial correspondence and records management systems. The search parameters encompassed correspondence to, from or pertaining to Man Haron Monis that was in the possession of the department. Relevant divisions in the department were also asked to review records they held.
3. Documents relevant to the terms of reference for the Martin Place Siege Review were passed by the department to the Review team.
4. On 2 February 2015, the department became aware that a letter from Sheikh Haron dated 7 October 2014 and the department's reply to that letter had been inadvertently omitted from the correspondence provided to the Martin Place Siege Review. The department became aware of this omission when the Australian Federal Police notified the department it had found the letter and the reply [REDACTED]
5. The department subsequently ascertained that the omission had occurred because search results identifying the letter and reply were contained in a separate sheet within a spreadsheet and were overlooked by departmental officers coordinating the provision of information to the Review.
6. On the same day the department became aware of the omission it advised the Review team that an item of correspondence and the reply had inadvertently not been provided to the Review due to an administrative error. The Review team member advised that the text of the Review had been finalised and the department therefore did not provide the document.
7. On 27 May 2015 at the Senate Legal and Constitutional Affairs Committee Budget Estimates hearing, Katherine Jones, Deputy Secretary, National Security and Criminal Justice Group, provided evidence that the correspondence in question was provided to the review. After further

discussions with a former colleague on the Review team, Ms Jones concluded that her evidence was incorrect and that she had been thinking of another document and not the correspondence in question. Ms Jones will correct her evidence to the Senate Committee at the earliest opportunity.

8. To prevent such errors from occurring in future, I have asked officers in the department to prepare protocols to govern searches for and provision of documents.

9. The department has taken steps to ensure appropriate awareness and vigilance after the National Public Alert Level was raised to High on 12 September 2014. These measures include:

- An email to all staff on 12 September 2014 advising them of the change in the National Terrorism Public Alert level, noting ASIO's Protective Security Advice for Heightened Threat Environments and encouraging staff to be vigilant and report any suspicious activity or behaviour to the Departmental Security Unit.
- Testing and review of Robert Garran Offices lockdown procedures on 2 November 2014 and on 17 November 2014 the department's Business Continuity, Crisis Management and Heightened Security arrangements were exercised.
- From November 2014 to March 2015, the department's heightened security measures were reviewed to prepare a new Security Alert Level Procedure. A new Security Alert Level Procedure was established from 20 May 2015 to support changes to protective security measures in the event of an escalating alert levels.

10. The department carefully assesses each item of correspondence received by the department on matters relating to national security and departmental officers liaise with other government agencies, including law enforcement and security agencies, where an item of correspondence raises concerns.

Yours sincerely

Chris Moraitis PSM

Attached is a first draft of a letter from the Secretary to the Attorney-General. I would be grateful for any comments. There will also be an opportunity to discuss at tomorrow's 11am meeting.

Sarah

As foreshadowed, Chris would like to prepare a letter to the AG which outlines in respect of our Monis search and provision of documents to the review and AFP:

The search procedure

How the error occurred

How the error came to light and associated management of it

What steps the department is taking to enhance its search and provision of document processes

What steps more generally the Department took after the raising of the alert level on 12 September 2014 to ensure appropriate awareness and vigilance in AGD

May I see a draft on Wednesday morning please. If you need any more hands to help with this let me know. It is important we do this in parallel with the work of the taskforce, so we can finalise it as soon as the other work is finished.

Iain will advise if he recalls Chris wanted anything else in it.

Regards
