

ABC Senate Inquiry

Please act to save The New Inventors, Art Nation, the art unit, and sports' coverage.

The ABC should not be a distribution platform for commercial voices out of Sydney and Melbourne. Please ensure my taxes support quality locally produced television, regional voices, Australian innovation, science, the arts, sport, and the independence of the ABC.

This decision strikes at the ABC's ability to maintain editorial control over content.

The commercial broadcasters aim for the least expensive and most populist programming: please do not allow the ABC to follow suit. Do not allow ABC management to sell out on the ABC.

Thank you.

Mr Anthony Cookson
