
Hi Stephen,

Thank you for helping me with the Senate Inquiry last week. I would like to submit the below links as further information regarding the information I put forward. I believe this will be useful to explain the context and work that is happening with landholders in the bush on engaging communities to address the feral pig problem.

I would also like to draw to your attention that the below work on feral pigs is also being looked at very interestingly to manage wild deer. More and more of our work is being drawn to interest in managing deer at a landscape scale.
