My name is Tara Brooks and I am extremely concerned about the NRWMB with regards to Muckaty. It now appears to be common knowledge that almost all indigenous leaders of the area and surrounding areas are opposed to having this waste dump in the area. Not only is there people living in and around this area, that will be affected, but so will the rest of Australia.

I am an Australian and it is incomprehensible that Muckaty is still being considered as a waste dump.

Appauled
