Eligible expenditure items must relate specifically to the project activities that are to be delivered under this grant opportunity. Specific items will be negotiated with us and form part of the grant agreement.

If your application is successful, we may ask you to verify project costs that you provided in your Request for Information Form. You may need to provide evidence such as quotes for major costs. Not all expenditure on your grant project may be eligible for grant funding. The

decision maker makes the final decision on what is eligible expenditure and may give additional guidance on eligible expenditure if required.

You must incur the expenditure on your grant project between the start and end date or completion date of the project as defined in your grant agreement or within the Request for Information form.

2.3 Ineligible grant activities

We will assess the information provided in your Request for Information form to decide if the assessment criteria has been met. The Request for Information form requires you to provide key information to support claims against the criteria.

Criterion: The project benefits are consistent with the intent of the program, and the capacity of the applicant to undertake the grant.

The project will be assessed by the Department.

The Department will also consider whether the project represents value with relevant money.²

The following may also be considerations in the assessment of the project's viability and sustainability:

- How well the project has been scoped and costed;
- If/how you plan to secure partnership funding (both in-kind and cash) for the project, where required;
- How well you have assessed delivery risks and treatments for these risks; and
- How you aim to maintain the project in the future.

We may use the simple grant agreement or letter of agreement depending on the amount of funding and complexity of the grant. Each agreement has general terms and conditions that cannot be changed. We will use a schedule to outline the specific grant requirements.

We must execute a grant agreement with you before we can make any payments. We are not responsible for any of your expenditure before a grant agreement is executed. If you choose to start your project before you have an executed grant agreement, you do so at your own risk.

Your grant agreement may have specific conditions determined by the assessment process or other considerations made by the Decision Maker. We will identify these in the agreement.

The Commonwealth may recover grant funds if there is a breach of the grant agreement.

The grant agreement will state the;

In addition, we may ask you to provide an independently audited financial acquittal report. A financial acquittal report will verify that you spent the grant in accordance with the grant agreement.

You must submit reports in line with the timeframes in the grant agreement. We will provide sample templates for these reports as appendices in the grant agreement if required.

Reports may include:
