

Dear Sir or Madam.

This is in regard to becoming a green homes assessor. I have paid both mentally, physically & costly, to no avail. I have done the course to become an assessor at the time knowing I would have work. I am registered with ABSA. With all requirements done by the time given to completed along with the paper work required by HSAS whom I have not heard from. I am very disappointed in the way this has been run. If I am not given work in this field I would like to be paid for my costs in this not going ahead.

Elizabeth Bossley
