Submission to the Inquiry into the Fair Work Amendment (Small Business-Penalty Rates Exemption) Bill 2012

I am a permanent employee, working as a cleaner, currently earning around \$20.76 per hour.

yes i do have a mortgage no i am not a student

If penalty rates were abolished... who would clean the hospital for all those people who can't afford health insurance also stop the spread of infection

My weekends are important to me because...i enjoy working weekends it is alright for some people eg politicians they can give themselves a payrise when they feel like it some of them need to wake up and smell the roses and walk a day in the shoes of the people that have to work HARD to survive and look after the sick

I urge the committee to keep penalty rates.because who is going to keep the places clean and they are always ramming down our throats that the Government have got no money they need to donate some of there wages
