

Questions on Notice – 12 December 2024

Parliamentary Joint Committee on Human Rights

Inquiry into Antisemitism at Australian Universities

Chair: How long have you been doing your annual reporting of the complaints process for?

Answer:

UNSW produces an annual report on 'Student Conduct and Complaints' which covers all student complaints and student academic and non-academic misconduct. We have been reporting on these matters since 2017, with our first published report in 2021. Annual reports for the three previous years are available on our [website](#).

Chair: Has that happened? Has someone been suspended or excluded from the university in these sorts of incidents?

Answer:

UNSW has suspended and permanently excluded students for non-academic conduct, i.e. behavioural matters, previously. Penalties and outcomes are covered in our annual report on Student Conduct and Complaints.
