From:

Mr Daniel Vuik

I was very dissapointed how the newspaper got hold of the data from the 'My School' website and created their own league tables. I would like to see the following clauses (to the published data on the 'My School' website) happen to combat this problem.

- 1: Newspapers are not allowed to use any of the data from the 'My School' website to create their own league tables.
- 2: Newspaper need to publish the data in its entirity not certain aspects to suit their desrived motive.

There needs to be more information published on the 'My School' website in regards to the socio-economic status of students in schools. The webiste is really damaging to the self-esteem of parents, families and teachers who work in schools that have low socio-economic clientele, who are doing their very best to improve the outcomes for these students.
