Subject: Correction to Sub 19 Alteration to Point 1 in my previous submission

The Secretary,
Standing Public Works Committee, Parliament of Australia

The first point in my submission should read:

“Is there any current search for a Permanent Site for the storage of Intermediate Level Nuclear Waste, in a suitable seismological and geological area so that by 2037, when the proposed expansion for the ILSW storage at **LUCAS HEIGHTS** reaches full capacity, for the **ILSW** to be transported to the Permanent Disposal Site, rather than another temporary site, as is the current proposal?”
Can the bold, underlined areas be corrected, please.

Yours sincerely,
Christine M Wakelin
