ADC Assessment Processes for Overseas Trained Dentists

Presented by:
Dr Robert Broadbent, Chief Executive Officer

ACODS Workforce Conference
4 June 2009

 Australian Dental Council

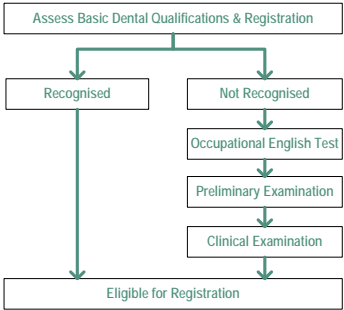

What is the ADC?

- ❖ Formed in 1993 – as an independent corporate body
- ❖ Membership comprises – Dental Boards, ACODS, ADA, RACDS, DHAA, ADOHTA (nominees are Directors of the company)
- ❖ Purpose – to accredit the courses in Australian University Dental Schools on behalf of Dental Boards
- ❖ In 1996, the assessment of overseas trained dentists for registration purposes was transferred to the ADC by the Australian Government
- ❖ Australian Government has authorised the ADC as the *assessing authority* for OTDs for visas under the General Skilled Migration program.

 Australian Dental Council

Preliminary Examination

- ❖ Acts as a screening exam
- ❖ Tests knowledge of Dentistry and of clinical and technical procedures relevant to dental practice in Australia
- ❖ Two MCQ papers (80 questions per paper)
- ❖ One SAQ paper (3 questions on clinical scenarios/practice)
- ❖ Held twice yearly (in March and September), in up to 27 locations across Australia and overseas
- ❖ Unlimited attempts
- ❖ Valid for 3 years as pre-requisite for the Clinical Exam

04 June 2009 5

 Australian Dental Council

Clinical Examination

- ❖ Conducted over a six or seven day period
- ❖ Set to the standard expected of a recent graduate from an Australian Dental School
- ❖ Uses various dental teaching hospitals and clinics with pre-clinical facilities and access to suitable patients
- ❖ Examiners are dental academics and experienced dentists, most involved in clinical teaching
- ❖ Examining team includes balance of general dental practitioners and appropriate dental specialists

Australian Dental Council

Clinical Examination

- ❖ Clinical disciplines covered are –
 - Clinical Dentistry 1 (CD1)
 - Operative Dentistry including Endodontics
 - Fixed Prosthodontics
 - Paediatric Dentistry
 - Clinical Dentistry 2 (CD2)
 - Periodontics
 - Removable Prosthodontics
 - Treatment planning
 - Clinical Dentistry 3 (CD3)
 - Oral Surgery
 - Oral Diagnosis
 - Oral Radiology and Radiography
 - Infection Control
- ❖ Unlimited attempts (but each attempt requires valid Prelim Exam pass)
- ❖ Supplementary exam if pass in 2 of the 3 sections
- ❖ Two exam series per year (currently 8-9 exam sessions per series)
- ❖ Priority system for allocation of places in examination sessions

ADC Pathway Contribution to Dental Workforce

- ❖ Since 2000 (to 2008) via the ADC assessment pathway –
 - 844 OTDs became eligible for registration in Australia
 - includes 39 OTDs via the PSDWS (2007-08)
 - ? other employer-sponsored OTDs
- ❖ How many have registered and are practising in the Australian dental workforce? [DSRU assume 100% in their projections]
- ❖ Where are they practising?
- ❖ Nature of practice and contribution to supply of 'dental visits'?
- ❖ How many international graduates (~350 per year from Australian Dental Schools) remain in Australia to practise?
- ❖ Will current national workforce initiatives increase the throughput of OTDs via the ADC pathway (or alternative)?
