

SUBMISSION 2 – Ms Pauline Sedgwick

Email received 24 June 2015

From: Pauline Sedgwick

Subject: China FTA

Dear Prime Minister and Committee Members

The China FTA is NOT in the interests of most Australians, particularly the unemployed and job seekers who will not have access to the jobs being created in our own country.

Also alarming is the possibility that Chinese companies may be able to sue our government if changes in our laws are bad for their business.

The Agreement does not define indirect expropriation nor the minimum standards of treatment for foreign investors.

Our Parliament should not be voting on this legislation without knowing what these provisions may mean in the future.

I await your response to me concerning these very important issues.

Yours sincerely

Pauline Sedgwick
