Subject: Spam: stop nuclear waste dumping

Date: Monday, 15 March 2010 3:15:35 AM

we don't need nuclear energy

don't dump it in my country

you all know the consequences, but your more interested in money
than sanity

this is your earth too and your children will live here and their children
too, stop ruining it for everyone else

you are creating a hell on earth

STRONGLY OPPOSED

yours sincerely

Clae Hickling
