To the committee secretary, Senate Legal and Constitutional C'ee

I wish to convey my view of the proposed Muckaty nuclear waste dump:

1 As was reinforced as a result of the Victorian Toxic Waste Dump Inquiry in Victoria, such waste shd be moved as short a distance as possible and retained in proximity to the point of production and relevant expertise;

2 Evaluation of alternatives must be made and made public, with public submissions including those of the traditional owners at Tennant Creek;

3 I strongly object to the concentration of maximum discretion with the Minister at the same time as relvant environmental and heritage legislation can be over-ridden. This is deeply undemocratic and environmentally reckless.

Yrs sincerely

Angela Munro
