Parliament House
Canberra ACT 2600

Dear Secretary

Great Australian Bight Environmental Protection Bill 2016

Thank you for the opportunity to comment on the *Great Australian Bight Environmental Protection Bill 2016* ('the Bill'), as referred to the Senate Legislation Committee on Environment and Communications ('the Legislation Committee').

Chevron Australia does not support the Bill for the reasons outlined in our submissions to the inquiry into oil or gas production in the Great Australian Bight by the Senate Environment and Communications References Committee ('the References Committee').

Chevron notes that our comprehensive submissions and appearance before the References Committee are directly relevant to consideration of the Bill, and as such we respectfully request that these representations also stand as Chevron's contribution to the Legislation Committee's deliberations in this matter.

Please do not hesitate to contact me should you have any queries.

Yours sincerely

Peter Fairclough
