

# **Joint Standing Committee on Foreign Affairs, Defence and Trade**

Review of the Defence Annual Report 2015-16 – 17 February 2017

## **ANSWER TO QUESTION ON NOTICE**

Department of Defence

**Topic:** Benchmarks for vetting performance

**Question reference number:** 5

**Senator:** Reynolds

**Type of question:** asked on Friday, 17 February 2017, Hansard page 20

**Date set by the committee for the return of answer:** 06 March 2017

### **Question:**

**CHAIR:** What is the benchmark for the different categories?

**Mr Sargeant:** It is six months for a positive vet clearance. But in the last year we have had a huge increase in productivity in that area. I need to get the figures in detail.

**CHAIR:** I am happy for you to take that on notice—what the benchmarks are and how you are tracking in terms of improvements in time frames. If someone is engaging with Defence in terms of any contracts, six months is a long time.

**Mr Sargeant:** Some go quicker; some go slower; it depends on the nature of them.

**CHAIR:** I am happy for you to take that on notice.

### **Answer:**

The table below outlines the Australian Government Security Vetting Agency benchmarks and improvements in vetting timeframes and completions.

Australian Government Security Vetting Agency commenced a comprehensive positive vetting remediation program in January 2016. The scale of the positive vetting remediation task means that the positive vetting backlog and average positive vetting processing times will remain high through Financial Year 2016-17 and Financial Year 2017-18. The positive vetting backlog should be removed and returned to benchmark processing times by the end of Financial Year 2017-18.

**Average processing times FY15/16 and FY16/17 to Date**
