MY PERSONAL APPEAL IN REGARDS TO GREEN LOAN ASSESSORS

Dear Sir / Madam,

I have spent nearly \$2500 towards training, insurance and registration. I almost left my current job to work with a company and register with them as an Assessor with the HO number that was emailed to me just 2 months ago. But within days, I read about the changes that limited work and therefore income as an Assessor . I am really disheartened by the uncertainties of opportunities for income for people like me who got registered only recently.

\$2500 is a big amount of money for me with which I could have done many things for my family. I trusted the promises made for the Green Loans Assessment program and made payments towards it from my small savings. Kindly pay me atleast \$2500 so I won't have loss for the money I invested even if I can't make any extra amount through this program. This is my last resort and appeal.

Thanking you in anticipation for the best possible positive and productive outcome.

Kind Regards,

Deva Anand Ezekiel
