

To whom it may concern,

I am writing to put forward my request that there be a 10c refund on drinking bottles and cans. I believe it will greatly reduce litter and have many other positive benefits.

When I go for a walk with my two children, we invariably pick up at least 3 or 4 bottles or cans and take them home in the stroller. Last week at the park I gave up collecting any more after 15 discarded bottles.

Yours Sincerely,

Hayley Quach
