

Dear Senators,

May I add my voice to those opposed to Senator Black's bill?

Sickening practices are taking place. demonstrably the only effective weapon is the sanitising glare of public opprobrium.

Animals are voiceless and defenceless. Please do not remove what is effectively their only hope, and the only restraint on the most egregious and sickening forms of cruelty on the part of those with no conscience and limitless greed.

It's a vote changer for me!

Thank you

Deb Bauer
