Dear Sir/Madam,

INQUIRY INTO THE COLLAPSE OF TRIO CAPITAL

We conduct our own self managed superannuation fund; **BEACHOUS SUPERANNUATION FUND**, and have lost our investment of \$30,000.00.

We invested in it with advice from our financial advisor
showed us recommendations from van Eyk.

He was convinced this would suit our investment profile and was confident of its success because of the advice from the van Eyk company.

Naturally Mr [redacted] was devastated when the news of the alleged embezzlement was published, as he had been able to convince several other clients to invest in Trio.

It has hurt us as well but it was not a high proportion of our total fund.

It now seems like we are now unable to claim on any of the collected funds and are perplexed as to why self managed funds are left out of the claimants.

Please don't hesitate to contact us if you require further information on our holding.

Your faithfully

A S Broadhead and C A Broadhead
