

To whom it may concern,

Will you please on my behalf support Senator John Madigan's Bill for Health Insurance Amendment (Medicare Funding for Certain Types of Abortion) Bill 2013?

As an Australian I find it disgusting and unacceptable for Medicare to be Funding Gender Selective Abortion which is such a crime and discrimination against females and humanity as a whole.

I do not think it wise for Australia to agree with some cultures that females are of less value to society than males, it is simply un-Australian and we cannot reduce our values and culture to the low values of some third world countries. This is not a safe environment for the health and ideals of the next generation of Australians.

The use of Gender Selective Abortion for the purpose of 'Family Balancing' is a gross cover-up for discrimination of females, is this really the future culture of Australia that we as Australians want to promote? An Australia where females are looked down on and possibly (if they make it to birth) have less opportunities and rights than their male counterparts? I am totally confident that this would be a big leap in the wrong direction for Australia if we were to accept this disgraceful act of Gender Selective Abortion.

Let us protect women and stop Gender Selective Abortion.

I will eagerly await your reply and will inform my family and friends of your answer.

Yours Sincerely,

Mr Matthew J. Williams
