Department of Finance

**Jane Halton AO PSM
Secretary**

Our Ref: SEC0012862

The Hon Ian Macfarlane MP
Chair
Joint Committee of Public Accounts and Audit
Parliament House
Canberra ACT 2600

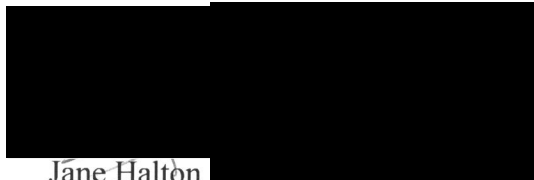

Dear Mr Macfarlane

I enclose a supplementary submission from the Department of Finance (Finance) to the Joint Committee of Public Accounts and Audit (JCPAA) *Inquiry into Development of the Commonwealth Performance Framework*.

The supplementary submission endeavours to address the concerns of the JCPAA and provides the proposed Finance Secretary direction under section 36(3) of the *Public Governance, Performance and Accountability Act 2013* that would set the minimum requirements for the presentation of performance information in Portfolio Budget Statements from 2016-17. An illustrative example of how performance information consistent with the direction might be presented is also included.

Finance does not consider the information in this submission needs to be kept confidential.

Yours sincerely

Jane Halton
Secretary

1 December 2015

Inquiry into the Development of the Commonwealth Performance Framework

Joint Committee of Public Accounts and Audit

Supplementary Submission by the Department of Finance

December 2015

Introduction

1. This supplementary submission to the Joint Committee of Public Accounts and Audit (the Committee) inquiry into the *Development of the Commonwealth Performance Framework* seeks to address a number of issues that were raised during the public hearing on 26 November 2015.
2. At the hearing the Committee focussed on the following key concerns:
 - that terminology in the proposed Finance Secretary direction is inconsistent with the draft indicative direction provided in March 2015 and not sufficiently clear, especially in moving away from terminology like “impact of programs” and “their effectiveness in achieving expected outcomes” to “differences made for each purpose”;
 - that the Committee was strongly concerned that the granularity of proposed performance information did not relate to programs in the Portfolio Budget Statements (at least for new or modified programs); and
 - that the Committee sought clarity around timeliness of updates to corporate plans relative to the appropriations cycle.

Response to Issues Raised

Terminology of proposed Finance Direction

3. This submission provides the Committee with revised text of a proposed direction (at Attachment A) from the Finance Secretary under subsection 36(3) of the *Public Governance, Performance and Accountability Act 2013* (the PGPA Act), which re-incorporates elements of the March 2015 draft, about measuring impact and effectiveness. It also makes provision that where new or materially changed programs are proposed for funding, the Portfolio Budget Statements must outline the delivery and performance criteria for these programs and the purpose in the entity’s corporate plan to which it is linked.
4. Assessing performance is a key dimension of ensuring the 'proper use' of public resources. The PGPA Act defines 'proper' when used in relation to the use and management of public resources as encompassing the concepts of effectiveness, efficiency, economy and ethical use.

Granularity of Performance information

5. The revised proposed direction also prescribes the requirements for the provision of program level performance criteria in Portfolio Budget Statements from 2016-17, with an additional requirement for new or materially changed programs to outline the purpose to which they are linked, delivery and performance criteria.

Timeliness

6. It is expected that entities' corporate plans will be updated to incorporate new or materially changed programs, as presented in the Portfolio Budget Statements, as soon as practicable following the presentation of appropriation bills to the Parliament, noting the Committee's interest in having up-to-date corporate plans available for Senate Estimates hearings.

Illustrative example of performance information in Portfolio Budget

Statements

7. A revised draft illustrative example of Section 2 of Portfolio Budget Statements (at Attachment B) has been included to show how the requirements prescribed in the revised proposed Finance Secretary direction could be implemented. It is an adaptation of program and outcome information for the Department of Finance in its 2015-16 Portfolio Budget Statements.

Summary of Changes to Performance Information in Portfolio Budget

Statements

8. The table provided at Attachment C summarises the proposed changes in the presentation of the Portfolio Budget Statements from 2016-17 onwards. It incorporates information in the submissions Finance provided to the Committee on 21 November 2014 and 29 April 2015.
9. The proposed changes to seek to maintain the utility of information provided to the Parliament and the public. This is achieved by outlining delivery and performance criteria for ongoing programs and, where required, updated delivery and performance criteria for new or materially changed programs. These are linked to purposes as set out in entities' corporate plans.

Portfolio Budget Statements Guidance

10. The Portfolio Budget Statements Guidance will be refined once the approach for the inclusion of performance information has been agreed with the Committee.
11. The Guidance will include details on how to present the information in Portfolio Budget Statements, required under the Finance Secretary direction, in a standard form. It will provide templates for entities to present financial information related to outcomes and program expenses, the mapping of program to purposes and the presentation of program level performance criteria.
12. Information on indicative key dates and milestones can be found at [Attachment D](#).

Next steps

13. Finance would like to issue a Finance Secretary direction under section 36(3) of the PGPA Act as soon as practicable. This will provide entities with sufficient time to understand the new requirements for performance information in Portfolio Budget Statements, and to develop the necessary framework in advance of the 2016-17 Budget.
14. Finance will continue to consult with the Committee on the implementation of the enhanced Commonwealth performance framework, including understanding the impact of proposed changes to Portfolio Budget Statements.

Attachment D – Indicative key dates and milestones - as at 25 November 2015.

Requirements for Performance Information in Portfolio Budget Statements

Finance Secretary Direction under Section 36(3) of the *Public Governance, Performance and Accountability Act 2013*

I, Jane Halton, Secretary, Department of Finance, issue the following direction under subsection 36(3) of the *Public Governance, Performance and Accountability Act 2013* (the PGPA Act).

Dated *Day Month Year*

Jane Halton AO PSM
Secretary
Department of Finance

1. This direction is made under subsection 36(3) of the PGPA Act. It applies to the preparation of Australian Government Portfolio Budget Statements for the reporting periods from 2016-17 onwards.
2. This direction applies to the accountable authorities of Commonwealth entities required to:
 - a. contribute to Portfolio Budget Statements published at the announcement of the annual Australian Government Budget; and
 - b. publish annual corporate plans under section 35 of the PGPA Act.
3. Accountable authorities to which this direction applies must ensure that annual Portfolio Budget Statements include performance information as set out in Attachment A to this direction.
4. This direction commences on *Day Month Year* until such time as it superseded or rescinded by a subsequent direction issued by the Finance Secretary under subsection 36(3) of the PGPA Act.

Attachment A

**Minimum requirements for performance information
in Portfolio Budget Statements**

1.	Portfolio Budget Statements must indicate the connection between the appropriated outcomes and programs of an entity to the entity's purposes as expressed in its corporate plan. This connection will be presented by mapping outcomes and programs to purposes in a schematic or tabular form.
2.	Portfolio Budget Statements must include at least one high level performance criterion to assess the impact of programs and their effectiveness in meeting each of the entity's outcomes and purposes.
3.	Where new or materially changed programs are proposed for funding, the Portfolio Budget Statement must outline the delivery and performance criteria for these programs, and the purpose in the entity's corporate plan to which it is linked.
4.	High-level performance criteria for established programs that are reported in an entity's Portfolio Budget Statements must be able to be read across to the entity's corporate plan.
5.	Outcomes or programs described in an entity's Portfolio Budget Statements should provide an indication of links to relevant outcomes or programs in other Commonwealth entities.

Example for illustrative purposes only

ATTACHMENT B

**Example of the revised Section 2 of Portfolio Budget Statements
from 2016-17**

The following is an illustrative example suggesting how section 2 of Portfolio Budget Statements (“Outcomes and planned performance”) might be reorganised to reflect Finance’s preferred approach. It adapts a segment of programme and outcome information for the Department of Finance in the 2015-16 Portfolio Budget Statements for the Finance portfolio.

Section 2: Outcomes and planned performance

From 1 June 2015 the reporting arrangements under the enhanced Commonwealth performance framework sit alongside the existing appropriations framework. Appropriations from the Australian Parliament are directly or notionally allocated to outcomes. Programmes linked with each outcome provide a description of how appropriations will be applied. Purposes described in annual corporate plans describe what will be achieved. Strategic performance information presented level in Portfolio Budget Statements – linked to more detailed information in corporate plans – provide a basis for assessing whether funding received by entities is used as intended.

2.1 Outcome and Programme Expenses

The following provides detailed information on expenses for each outcome to which appropriations are either directly or notionally allocated.

Outcome 1: Support sustainable Australian Government finances through providing high quality policy advice and operational support to the government and Commonwealth entities to maintain effective and efficient use of public resources.

Table 2.1.1: Budgeted Expenses for Outcome 1

Outcome 1: Support sustainable Australian Government finances through providing high quality policy advice and operational support to the government and Commonwealth entities to maintain effective and efficient use of public resources	2014-15 Estimated actual expenses \$'000	2015-16 Estimated expenses \$'000	2016-17 Estimated Expenses \$'000	2017-18 Estimated Expenses \$'000	2018-19 Estimated Expenses \$'000
Programme 1.1: Budget and Financial Management - advising the Minister for Finance (Finance Minister) and the Expenditure Review Committee (ERC) of Cabinet on fiscal and economic policies and related matters so they can make informed resource allocation decisions; supporting the Finance Minister in meeting financial reporting responsibilities under the PGPA Act, the Charter of Budget Honesty Act 1998 and the Annual Appropriation Acts; and supporting the delivery of the Budget.

2.2 Performance

Table 2.2.1 details the performance criteria for each Department of Finance Outcome. It presents a summary of delivery and performance criteria, and the link to purposes described in the 2015-16 Department of Finance compete plan. It also indicates measures announced in the 2016-17 Budget that have a material impact on these programs, and, where appropriate, changes to performance criteria.

The performance criteria in table 2.2.1 represent a subset of more detailed performance criteria available in the Department of Finance corporate plan. This subset indicates what will be achieved when a program is delivered in an efficient and effective manner.

Readers are referred to the [2015-16 Department of Finance Corporate Plan](#) for further information on the strategic environment in which the Department of Finance seeks to deliver its programmes, and the capabilities it will develop to fulfil purposes that operationalise the outcomes mandated by government.

Example for illustrative purposes only

Table 2.2.1: Mapping of Programmes to Purposes described in the Department of Finance corporate plan

Outcome 2 – support an efficient and high-performing public sector through providing leadership to Commonwealth entities in ongoing improvements to public sector governance, including through systems, frameworks, policy, advice and service delivery.			
Program	Delivery <i>[extracted from corporate plan] *</i>	Performance Criteria* <i>[extracted from corporate plan] *</i>	Purpose(s)
Program 2.2 – Transforming government	<p>As a public sector leader, stimulate and drive public sector efficiency, excellence and innovation, and support the government in reforming and improving the governance, performance and accountability of the public sector and public assets.</p> <p>Undertake reviews and scoping studies on select business activities and services to determine whether they can be provided more efficiently or effectively by other means.</p> <p>Reforming public sector management, including through the shared and common services project and other transformational reforms.</p>	<p>2015-16 Reviews and scoping studies meet the government’s targeted outcomes, including the Airfare Warfare Destroyer project, ASC Pty. Ltd., and the Australian Rail Track Corporation Ltd.</p> <p>2016-17 and beyond Reform of back-office IT systems, including business applications used to manage and integrate transactional business processes within Commonwealth entities, achieves the government’s agenda of a smaller, more efficient and better connected public sector.</p>	Transformation – innovate and improve public sector operations and reform the management and operations of public assets
Material Changes Resulting from the following measures:			
<i>[Note – There is a measure entitled Defence Housing Australia – reform, which does not materially change the program, and, as such would not appear in the Department of Finance Portfolio Budget Statements.]</i>			
Program 2.3 – Property and construction	<p>As steward of the government’s public sector governance, performance and accountability framework and key assets contribute to, and foster, leading practice in public sector management, governance and accountability –including the Commonwealth land, public works and property management frameworks.</p> <p>Supporting the government’s reform agenda, including the Smaller Government Agenda.</p>	<p>2015-16 The Australian Government Office Occupancy Report (to be published in 2015–16) demonstrates that Commonwealth entities are working towards best practice in property management and planning.</p> <p>2016-17 and beyond <i>Market testing of Commonwealth-owned buildings (ANZAC Park East, ANZAC Park West, East Block and West Block) and other assets identified by the government is completed to inform government decision-making for the future of these assets.</i></p>	Governance – foster leading public sector practice Transformation – innovate and improve public sector operations and reform the management and operations of public assets
Material Changes Resulting from the following measures:			
<ul style="list-style-type: none"> • Smaller Government – Property Divestment Programme- general office accommodation Canberra 			

*See Department of Finance Corporate plan for further detail.
